

OISEAU-FEU (Firebird) is a newly-created voluntary association based in Lyon, France.

Our members are animal-lovers willing to contribute to conservation by:

- making the relevant information available to a maximum number of people, and in particular to children, through this website,
- organising cultural events to raise environmental awareness and promote animal welfare,
- establishing partnerships with international wildlife associations, trusts or foundations and helping them with their fundraising activities,
- studying the complex relationships between humans and animals in various situations, with a focus on the possible reintroduction of endangered species bred in captivity into their natural habitats.

Our logo is the phoenix, a magnificent mythical bird and symbol of rebirth and hope, whose tears are said to have healing powers.
